1 [Posters: By the people now, for the people later: using transitory metadata to anchor a digital archive](#)

Anne Washington

July 2002 **Proceedings of the 2nd ACM/IEEE-CS joint conference on Digital libraries JCDL '02**

**Publisher:** ACM Press

Full text available: pdf(172.83 KB) Additional Information: [full citation](#), [abstract](#), [index terms](#)

The Congressional Research Service (CRS) serves Congress by providing timely, objective and non\_partisan research, analysis and information services. The Legislative Information Office within CRS fulfills that mandate by maintaining a digital library of legislative documents known as the Legislative Information System. An ongoing challenge is designing these full text and structured databases for both promptness and permanence. This is accomplished by metadata and interface design. This foundatio ...

## Nothing Found

Your search for **+abstract:web +abstract:portal +abstract:service +abstract:equipment +abstract:track** did not return any results.

You may want to try an [Advanced Search](#) for additional options.

Please review the [Quick Tips](#) below or for more information see the [Search Tips](#).

### Quick Tips

- Enter your search terms in lower case with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

- Narrow your searches by using a + if a search term must appear on a page.

museum +art

- Exclude pages by using a - if a search term must not appear on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

museum +"natural history" dinosaur -Chicago
